

Worldwide Semiannual Blockchain Spending Guide

AN IDC SPENDING GUIDE

The *Worldwide Semiannual Blockchain Spending Guide* examines the blockchain opportunity from a region, an industry, a use case, and a technology perspective. This comprehensive database delivered via pivot table format or IDC's Customer Insights query tool allows the user to easily extract meaningful information about the dynamic and evolving blockchain market by viewing data trends and relationships and making data comparisons.

Markets Covered

This product covers the following segments of the blockchain market (subject to change):

- **8 regions:** United States, Canada, Japan, Western Europe, Central and Eastern Europe, Asia/Pacific, Middle East and Africa, and Latin America (China, forthcoming)
- Blockchain IT spending by industry use case such as smart contracts, trade finance, record keeping, and digital identity
- Hardware, including servers and storage
- Software such as blockchain platforms and applications
- IT and business services

Subjects Analyzed

Throughout the year, this product will address the following topics:

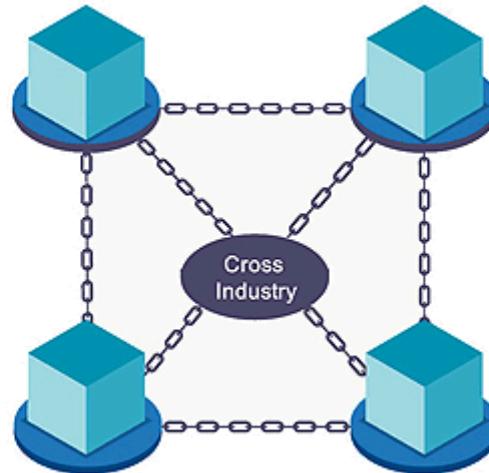

- The definition of the blockchain market from the use case perspective
- The size of the blockchain opportunity by region, industry, and use case
- Market drivers impacting blockchain adoption and growth

Key Questions Answered

Our research addresses the following issues that are critical to your success:

1. What are the different elements of the blockchain landscape?
2. How will blockchain adoption vary by region, use case, and industry?
3. How will the blockchain market grow over the forecast period by industry and use case?
4. Which industries present the greatest growth opportunity for blockchain technologies?

Global Program Coverage
